**Stories are**  
made of words, sounds, images, taste,  
smell, play and sometimes facts.

## We are storytelling animals

We use story for almost everything,  
even to tell about science.

**Romanian scientist and explorer**  
leaves his great-granddaughter a chest full  
of... but the story hasn't started yet.

## Safety measures

The wind might blow and the ocean  
splash. Good to know where south is.

## Beware!

Only traveler might enter. And children  
under 107+ age. Duration: 30 minutes.
